ABOUT ME

I am an enthusiastic Computer Science student with proficiency in Java and SQL. I have finished Core Java and JDBC and am currently studying Spring Boot for backend development. I also possess some knowledge of HTML and CSS. I am interested in developing real-world applications, delving into cloud technology, and developing as a backend developer with emphasis on scalable, efficient systems in an enterprise setup.

PROJECTS

Gym Manaement Website

Java, JDBC, MySQL, HTML, CSS, JavaScript

- Developed a Gym Management System with user authentication and CRUD operations
- Connected Java backend to MySQL using JDBC
- Built a responsive frontend using HTML, CSS, and JavaScript

Personal portfolio

HTML,CSS,JavaScript

- Designed and built a personal portfolio website to showcase skills and projects
- Implemented responsive layout and interactive features using HTML, CSS, and JavaScript
- link → Ashwanth's Portfolio

Mini Projects

Created basic Java-JDBC and web-based applications to practice backend logic and responsive design using HTML,CSS,and JavaScript

- Login Form Validation
- JDBC - based Student Record System

INTRESTED FEILDS

- Back-end Development
- API Development
- Full Stack Web Development
